UNITED STATES DEPARTMENT OF AGRICULTURE
Food Distribution Administration
Washington, D. C.

February 22, 1943

ADMINISTRATIVE SERVICES DIVISION MEMORANDUM NO. 5

Supplement 1

To: Branch and Division Chiefs, and Regional Administrators

From: F. J. Hughes, Chief, Administrative Services Division

Subject: Mail

The Third Assistant Postmaster General has called to the attention of this Department the mailing by field representatives of our Department of large envelopes containing circulars or small pamphlets which could be folded and enclosed in smaller envelopes. It was pointed out that the use of large envelopes necessitates the distribution of those pieces through "flat" distributing cases, whereas if the mailings were prepared in smaller size envelopes distribution could be made more expeditiously through the letter cases.

Attention was also called to the practice on the part of some field offices of tucking in the flaps of kraft envelopes rather than sealing them. The practice of tucking in the flaps of envelopes leaves a large opening so that other letters and cards often become lodged inside the unsealed envelopes during transmission through the mails.

We have noticed quite a bit of mail arriving from the several field and Regional offices of the Administration addressed to our former offices at 1014 Fifth Street, Northwest. As you were previously advised, the Administration vacated those offices several months ago, so that mail should no longer be sent to that address.

We have also received a number of envelopes from Regional offices containing correspondence addressed to field offices and to other Government agencies in Washington. Your attention is called to the fact that mail should be carefully checked before being placed in envelopes addressed to our Washington office, and any mail which is addressed to agencies outside the Department of Agriculture should be placed in envelopes addressed directly to those agencies and mailed in a separate envelope. This will provide for much more rapid delivery of mail in Washington to those agencies outside the Department.

F. J. Hughes

December 2, 1943

ADMINISTRATIVE SERVICES DIVISION MEMORANDUM NO. 5
Supplement 2, Revision 1

To: Branch and Division Chiefs and Regional Directors
From: F. J. Hughes, Chief, Administrative Services Division
Subject: Mail - Postal Delivery Zones

The following information, based on addresses submitted to this office from the respective Regional Offices, is furnished relative to zone numbers in several of the Food Distribution Administration field offices. As identification numbers of various districts are established in the regional offices these numbers should be relayed to this office in order that supplements to the list may be issued. For assistance to the postal workers, letters and other mail sent by you to these points should carry the zone number immediately following the name of the city: e.g., Washington 25, D. C.

Because of the shortage of mailing plates, the mailing lists will not be corrected to show the zone number, however as changes in the lists are required the corrections will include zone numbers.
